

TEAYS VALLEY OFFICE UPDATE!

Construction began on June 4 on the renovation project for the Teays Valley office. The branch will be closed until September in order to nearly double the size of the facility and to provide more convenience for our members.

We do apologize for the inconvenience but if you need answers or assistance, please call or visit any of our other offices in the area. The branches, their addresses and telephone numbers are found on this website.

Be watching this page for additional updates on the renovation project and for news on the opening of our new Teays facility!
